## Human anti-*C. difficile* toxin B

**Catalog #:** 0250-002

**Lot #:** 1303005

**Immunogen:** Recombinant *C. difficile* toxin B.

**Description:** A human IgG produced in *N. benthamiana* and is reactive to *C. difficile* toxin B.

**Supplied:** 100 µg is supplied in PBS pH 7.4 at a concentration of 1.98 mg/mL.

**Purification:** Antibody is purified using immobilized protein A.

**Clonality:** Human variable, human constant of the IgG<sub>2</sub> isotype.

**Relevance:** This monoclonal is a potent neutralizer of toxin (IC<sub>50</sub> = 0.1 ng/ml) *in vitro*.

### Recommended Dilutions:

**ELISA:** Recommended antibody concentration from 10 – 100 ng/mL.

**WB:** This antibody has not been tested in Western Blot analysis.

**Storage:** 2-3 weeks +4°C, -80°C long term. Avoid repeated freeze/thaws.

**Cross Reactivity:** No known cross reactivity.
